Research. Huang, G.H., Korfiatis, N. and Chang, C.T. (2018). Mobile Shopping Cart Abandonment: The roles of Conflicts, Ambivalence, and Hesitation. *Journal of Business Research*, 85, 165-174.

Researchers at the University of East Anglia (UEA) just published a study that looked into users' thoughts and feelings around purchasing on mobile:

> *"Shoppers hoping to bag a bargain in the post-Christmas sales are much less likely to go through with their purchases if they are using phones and tablets to buy goods online."* – via uea.ac.uk
